

## NYSCPG's Geology Rocks 2023 Recap

The third annual NYSCPG "Rock" n Roll networking and fundraiser event was held on April 13, 2023 at the Coliseum in White Plains, NY. Musical entertainment was provided by Dead Meat – an electrifying tribute to The Grateful Dead – who played two jam-filled sets that had a crowd of about 150 NYSCPG supporters. The band amazed the crowd with their take on classic hits from the quintessential jam band like Around and Around, Franklin's Tower, Truckin, Saint of Circumstance, Viola Lee Blues, Shakedown Street, and Feel Like a Stranger. The music was phenomenal, the crowd was jammin' and in good spirits throughout the night and the food and drink were excellent.

On behalf of the NYSCPG, I would like to extend our gratitude to all those who attended, especially our sponsors, Alpha Analytical, Brookside Environmental, Castleton Environmental, Clear River Environmental Service Corp., Coastal Environmental Solutions, Inc., Durante Rentals, Eco-Rental Solutions, EPhase 2 LLC, Eurofins, Lakewood Environmental, Langan Engineering, Laurel Environmental, NOVA Geophysical Services, NYCO Environmental & Dewatering Corp., Posillico Inc., PVE, LLC, Roux, Sive, Paget & Risel, P.C., and York Analytical. Most importantly, thank you to Michael Beckerich and York Analytical for organizing a world class party in support of New York's Professional Geologists. We had an amazing turnout - it was great to catch up with a lot of old and meet new friends. The revenue generated by the fundraiser will help us maintain our executive director and achieve our other goals including hiring a lobbyist, starting a scholarship fund for undergraduate/graduate students, and continuing to provide value to our members.
